

HYDRA

Hydra, the Queen of the Argosaronic Islands. A cosmopolitan, glorious and magnificent island that combines tranquility and relaxation with entertainment all day long and intensive night life.

The island is famous for its maritime tradition. The Hora is picturesque and beautiful with high and colorful sea captains mansions lining the waterfront, while a stark gray hill rises in the background. Between the mansions are narrow streets with tavernas and shops, where visitors gather after they reach the small port of this charming island. The minute you place foot on the island, you will understand that something is missing. There are no cars. No big streets. Just beauty, well being and blue sea.
