

PLAKA

The neighborhood of the Olympic Gods. The Monmartre of old Athens. In whichever way you choose to call the area, Plaka remains the picturesque neighborhood of Athens under the holly rock of Acropolis. Narrow roads lead to numerous shops, taverns, coffee shops, bars, buzzing squares, the flee market of Monastiraki, but also to quite romantic corners with small houses and balconies full of flowers. Walk up and down the streets, find your corner of serenity, or your spot of noisy life. Plaka will not disappoint you, will not spoil favors.
